OBJECTIVE

To work on exciting projects that will encourage creativity and further develop my artistic talents.

WORK EXPERIENCE

February 2005 to Present

FarHeap Solutions/Reaction Design Studio, Irvine, CA

Art Director

- Provide art direction, mentorship, and coaching to designers on specific projects ensuring high quality design concepts
- Manage multiple project timelines with exceptional attention to detail and meeting tight deadlines
- Interact regularly with creative partners and other agency departments as needed for completion of assigned projects
- Participate in conceptual development of projects, including brainstorming, comps, layouts, development and refinement of look and feel
- Create unique corporate logos for a diverse array of companies

January 2003 to September 2004

BLIZZARD Entertainment, Irvine, CA

Quality Assurance Analyst - World of Warcraft Team Lead

- Created and executed project test strategy and test plans
- Collaborated with developers, product managers, operations, and other members of the team in testing requirements and release planning
- Designed, wrote, and executed integration, regression and system test plans and matrices for the application
- Managed product defects and their resolution
- Documented, communicated, and escalated defects discovered during the project life cycle, working directly with the developers and project managers to ensure appropriate follow-through to resolution

September 1995 to October 2002

Cyber Warrior Inc., Fair Lawn, NJ

Senior Artist

- Created game art, including 3D Low Polygon Modeling, Mapping, Animation; 2D character concepts for a MMORPG; and Texture Maps
- Worked with a project team (game designers, engineers, producer) from the concept through delivery
- Performed voiceovers for in-game characters
